

I am tired of the lip service Republicans keep giving to states rights and keeping the federal government out of states rights. Wisconsin citizens wanted and approved the no call list law that we have. When it comes to invading my home by unsolicited calls, NO thank you. Wisconsin voters can't help it if federal legislatures kowtow to special interest groups, but we should not be made to do so against our own wishes and desires. I have greatly appreciated the seriously reduced daily interruptions and messages from unsolicited phone callers. Leave our state law as it is, please!
